About this item

- 【Pneumatic Forcing Design】** Unlike most spring-loaded toy guns on the market, our gun blaster adopts dart-air-forced design, which has a faster shooting speed, more accuracy and a longer shooting distance (about 66 feet). It's easy for even an eight-year-old kid to pull and push the slide. In addition, our toy blaster has much less possibility of bullets' jamming than other dart guns.

Exclusive Magazine Structure Patent

Exclusive Invention Patent

Easy to Replace the Magazine
